

# From mountains to beaches

## A new chapter for Sempre

Sempre has always created more than furniture. The brand creates atmospheres.

In 2026, Sempre enters a renewed chapter shaped by two landscapes: sun-drenched beaches and snowy mountain retreats. Places where time slows down. Where materials feel honest. Where comfort is quiet but present.

This new storytelling is not about contrast, but about balance: warmth and freshness, solidity and softness, structure and ease. Through sculptural forms, tactile materials and refined craftsmanship, Sempre translates the feeling of a holiday into everyday living.

## Aspen: the first impression

The Aspen collection marks the beginning of this new direction. Inspired by mountain interiors and long evenings by the fire, Aspen combines solid teak, generous proportions and distinctive curved frames that feel grounded yet fluid.

Each piece carries a calm architectural presence while inviting comfort and connection. Aspen is designed as the heart of the space, where people gather, slow down and share moments.

## Experience it during Antwerp Design Week

Discover Sempre's new chapter from May 30 till June 3, everyday from 9am to 6pm:

- [Sint-Felixpakhuis](#) (part of the Fedustria exposition), Antwerp city centre
- [Sempre Headquarters](#), Herenthout

Step inside and experience how beach and mountain atmospheres come together in sculptural forms, natural materials and spaces designed to make you feel at ease.
