## **GOMMAIRE'S 2025 COLLECTION: A HARMONIOUS BLEND OF ORGANIC ELEGANCE AND TIMELESS CRAFTSMANSHIP**

Antwerp, January 2025 - GOMMAIRE Organic Living proudly unveils its much-anticipated 2025 collection, a bold continuation of its signature aesthetic, blending timeless elegance with innovative craftsmanship. This year's collection expands upon beloved classics while introducing striking new designs for both indoor and outdoor spaces. The 2025 collection seamlessly blends classic elegance with modern innovation—bringing timeless beauty to every corner of your home and garden.

### **2025 HIGHLIGHTS: BUILDING ON CLASSICS AND BRAND-NEW INSPIRATION**

Outdoor series introduces a range of round tables in various sizes, including an intimate round bistro table to a generously proportioned low version, ensuring that every outdoor space is catered to. The collection also features a choice of fully wooden chairs or elegantly woven PE wicker seats in a natural colour. For added functionality, the tables can be paired with the Lazy Faye, a beautifully designed rotating turntable centerpiece.

Another standout is the Jules Collection, which seamlessly transitions from indoor to outdoor with an array of new additions. The indoor Club Jules with swivel is now offered in four exclusive new fabric options as well, alongside two sofa variations. The outdoor designs feature a robust wooden frame, finished in our signature natural grey patina, complemented by perfectly tailored cushions. Available in a wide selection of luxurious fabrics, each piece can be fully customized to reflect your personal style and taste.

One of the most exciting new additions to GOMMAIRE'S 2025 collection is the Faye Outdoor Collection, an elegant and expansive extension of the beloved indoor Faye armchair. Inspired by the refined curves and comfort of the original, the Faye

Additionally, the Sofa Edge evolves into a versatile new concept—a sleek coffee table that effortlessly transforms into a sunbed with the addition of plush cushions, offering both style and multifunctionality for modern outdoor living.

## OAK REIMAGINED: STRENGTH MEETS SOPHISTICATION

Further enriching the collection is the expansion of the Day Table series. Last year's beloved Day Coffee Table now reemerges in a sophisticated oak version, protected with a matte European-developed coating that enhances durability without compromising the natural beauty of the wood. This distinctive design has also been reimagined as a Day Dining Table, offering a seamless fusion of form and function. The perfect pairing? The Liam Chair, a fully upholstered masterpiece that balances sleek design with inviting comfort, making it an essential addition to any dining space. On top of that, the new Rowan Coffee Tables make their way into the collection—modern and robust in design, available in three different sizes. Despite their solid presence, their rounded edges lend an elegant touch, making them a perfect statement piece for any living space.

## HANDCRAFTED ELEGANCE IN EVERY DETAIL

GOMMAIRE's commitment to artisanal craftsmanship is at the heart of its 2025 collection. The introduction of the authentic ivory colour in the terracotta range brings a fresh, warm depth to the ceramic line, highlighting its raw, handmade appeal. This striking new hue complements the organic textures that define the brand's identity.

The basket collection expands with a strong emphasis on traditional weaving techniques and natural materials. Mendong weaving, a heritage craft from Indonesia, uses hand-harvested Mendong grass, carefully cultivated and processed by local villagers in an environmentally friendly way. This intricate technique, seen in the Kikka and Java baskets, results in beautifully textured, durable designs that reflect generations of artisanal skill.

Additionally, the Rabat and Sidi baskets showcase the organic texture of water hyacinth, another natural water grass, handwoven into soft yet sturdy forms. Each basket's unique weaving style enhances its character, reinforcing GOMMAIRE's dedication to sustainability and craftsmanship.
