

BETACO – Antwerp Design Week 2026

Highlight: Livorno Collection in Walnut Finish

BETACO is a Belgian outdoor furniture brand redefining the boundaries of *affordable luxury*. Built on decades of hands-on retail expertise, the company brings together Belgian design talent with a clear ambition: to deliver high-end outdoor living with uncompromising quality, at a more accessible level.

During Antwerp Design Week, BETACO presents a new highlight within its award-winning Livorno collection — now introduced in a refined walnut finish. This development marks a distinctive step in outdoor furniture design, bringing the warmth and depth of walnut aesthetics into a category traditionally dominated by lighter or more neutral tones.

The Livorno collection, recognized for its strong architectural lines and exceptional comfort, embodies BETACO's core philosophy: timeless design, durable materials, and a seamless indoor-outdoor experience. The new walnut finish enhances this vision, offering a richer, more sophisticated visual identity while maintaining the performance required for outdoor environments.

Designed in collaboration with Belgian creatives, Livorno reflects BETACO's long-term ambition to become a platform for design talent — where innovation, craftsmanship and commercial relevance meet.

Key Highlights

- Award-winning Livorno collection
- New walnut finish – unique within the outdoor segment
- Belgian design with a focus on architectural elegance and comfort
- High-quality materials engineered for outdoor durability
- Positioned within the affordable luxury segment

Quote

“We believe outdoor furniture should offer the same level of refinement as indoor living. With Livorno in walnut, we are pushing that boundary further.”

Discover BETACO

Visitors are invited to experience the full outdoor living concept at the BETACO showroom in the center of Antwerp, where collections are presented in a complete, immersive setting.
